

## Who We Are

AcariaHealth is a national comprehensive specialty pharmacy focused on improving care and outcomes for patients living with complex conditions and chronic illnesses, such as Rheumatoid Arthritis, Multiple Sclerosis, Hepatitis C and Cancer.

We have a nationwide network of pharmacies providing quality services to patients across the country. Our family of pharmacies has 14 dispensing locations, including Specialty Therapeutic Care™, our center of excellence focused on hemophilia and other bleeding disorders and Foundation Care™, our center of excellence for Cystic Fibrosis.

**Our specialized care management services put patients first, bringing a personal touch to specialty drug management.**

## What We Do

Our team of highly skilled and caring health care professionals work together to meet each patient's needs. Our licensed specialty pharmacies deliver medications directly to homes, and we have clinical pharmacists available 24 hours a day, 7 days a week to discuss the prescribed therapy and answer any questions regarding medications and supplies.

We offer clinical programs to all patients. These programs help ensure safe and appropriate medication use. Our clinical programs are designed to help manage side effects, improve overall health, increase disease and medication education and increase compliance. We can also provide additional education resources, such as websites, counseling groups, and other providers that may be beneficial to patients.

At AcariaHealth, we bring a personal touch to delivering clinical support. The prescription orders are prepared with great care by a team of knowledgeable AcariaHealth pharmacists. We teach patients how and when to take their medication to achieve the best possible health outcomes. We contact patients frequently to assess needs and coordinate patient care. Our passion for what we do drives us to exceed the expectations of those we serve.

**If you have any questions or concerns regarding our services, contact us by calling 800-511-5144. We are here for you, and look forward to serving you!**

## Getting Started

If you are currently taking a specialty medication, we will work with your current specialty pharmacy provider to coordinate a seamless transition of your prescription(s) to AcariaHealth. It is important to us that there is no gap in your specialty medication regimen(s).

AcariaHealth offers a series of care management programs to help you manage your specialty condition and assist you in remaining adherent to your therapy.

**These services are at no cost to you and include:**

- > *Collaboration with your healthcare specialist*
- > *Coordination of nursing services*
- > *Copay assistance programs*
- > *Drug therapy education and training*
- > *Home delivery*
- > *Touch points throughout therapy*
