Ambetter Pharmacies in the 90-Day Extended Network

What is the Ambetter 90-Day Extended pharmacy network?

The Ambetter 90-Day Extended Network of Pharmacies includes pharmacies that are contracted to provide eligible members an extended 90-day supply of most commonly prescribed maintenance medications. Having a 90-day supply of maintenance medications can make it easier for our members to keep their medications on hand and take them as prescribed.

Ambetter members can use the list below to find pharmacies that participate in the Ambetter 90-Day Extended Network

What is a “maintenance medication”?

Maintenance medications are drugs that are used to treat chronic conditions, such as, high blood pressure, diabetes, heart disease, and asthma.

Please note, not all medications are maintenance, and not all medications are covered for a 90-day supply. Please consult the Ambetter 90-Day Supply Maintenance Drug List on our website to determine if a drug is included. Keep in mind that just because a drug is included on the list, does not mean that it is covered through your specific insurance plan. Please refer to your benefit materials to ensure your prescription is covered.
